### **Objective:**

I want to apply my theoretical and practical knowledge about soils and plant diseases and get new experience and skills, which I will be able to use in my future professional activity.

### **EDUCATION**

Sept. 2012 – Jan. 2014	Lviv National Agrarian University, Faculty of Agrotechnology and Ecology: Master's degree in Agronomy
Jan. 2012 – June 2014	Lviv National Agrarian University, Faculty of Surveying: Specialist's degree in Land Management and Cadastre (part-time student)
Sept. 2008 – May 2012	Lviv National Agrarian University, Faculty of Agrotechnology and Ecology: Bachelor's degree in Agronomy

## **WORK EXPERIENCE:**

- July – August 2013 Internship on the University training farm “Dublyanske”, Ukraine: I worked in the fields with sugar beet, corn, wheat and barley. During this time I indentified insects and diseases of these plants.
- March 2011 Internship on the University training farm “Dublyanske”, Ukraine: I worked in the laboratory with potatoes. I studied the potatoes productivity, potato diseases and determined starch in potato with different varieties.
- June – July 2010 University training farm “Dublyanske”, Ukraine: I had a job in the fields with grain and root crops. I investigated different plant diseases and prepared special collection diseases of cereals crops and sugar beet.

## **SKILLS**

- IT Good command of Microsoft Office™ tools (Word™, Excel™, and Power Point™)
- Languages Ukrainian (native), Russian (second language), English (intermediate)
- Driving licence: B

Lviv, 13.12.2014 Olena Shanko
